An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jon E. Shackelford on 12-9-04.

On line 9 of claim 1, --an-- has been inserted before "electrical conductor".

On line 1 of claim 3, "2" has been changed to -1--.

On line 2 of claim 6, "electrical member comprises a resilient member having" has been changed to -spring clip has--.

On lines 1-2 of claim 8, "electrical member is a resilient member having" has been changed to -spring clip has--.

The following is an examiner's statement of reasons for allowance:

Hawkins et al is the closest prior art, however, the reference fails to teach or suggest the limitations of:

The fuel pump being grounded to the fuel pump housing and the electrical conductor contacting the pump housing in the operative position as recited in instant claim 1;

The electrical conductor comprising a spring clip as recited in instant claim 7;

The electrically conductive means comprising a resilient member having two ends, a first one of the ends being affixed to the filter housing and a second one of

the ends being movable between an inoperative position in which the electrical circuit of the fuel pump is open and an operative position in which the electrical circuit of the fuel pump is closed as recited in instant claim 13; and

the steps of providing a fuel pump housing, the fuel pump being grounded to the housing, and connecting the electrical conductor to ground as recited in instant claim 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
